

Exam Code: 225-020

Exam Name: CDIA+ CERTIFICATION EXAM-2002

OBJECTIVES

Vendor: CompTIA

Version: DEMO

prep4certs

Part: A

1: A content management solution has been designed for a company. In order to complete the implementation it will be necessary to remove user access to the content management database for several hours a day for several weeks.

How should this requirement be addressed?

- A. Solicit the vendors' input for the best times to conduct implementation tasks.
- B. Solicit the solution owner's input for the best times to conduct implementation tasks.
- C. Redesign the solution so that all of the implementation can be handled in one 24-hour period.
- D. Indicate to the solution owner that the best time for implementation tasks is 10 pm

Correct Answers: B

2: An Implementation Plan for a new imaging application should contain which activities?

- A. Forms design, create the document retention strategy document and layout the workflow rules and roles.
- B. Integrate the production imaging system into the existing IT network, connect it with the legacy systems; upgrade all of the desktop computers.
- C. Verify that images are delivered to the desktop, that the records are written in the database, and check that the images are stored on optical disks.
- D. Define production procedures; create user and technical documentation; plan and execute user and system administration and plan the roll-out in the organization.

Correct Answers: D

3: Who is most likely to determine the origin of the bottlenecks if the productivity of a new workflow system is less than expected?

- A. End-user
- B. Help Desk
- C. IT Department
- D. System Integrator

Correct Answers: D

4: A company, ABC Inc, is using 90% of its network capacity. They plan to scan 5,000 images per day to a network file server. In order to meet the increased demands on the system, which of the following should be increased?

- A. The network bandwidth.
- B. The number of scanners.
- C. The number of network servers.
- D. The number of users on the network.

Correct Answers: A

5: A customer is implementing a workflow system with electronic dossiers. During the design of the workflow it has been discovered that there are many exceptions to the process.

What is the first step in handling the exceptions?

- A. Validate exceptions through a third party.

- B. Get a commitment on the number of exceptions.
- C. Redesign the workflow system to handle every exception.
- D. Recommend to the client that business processes be redesigned.

Correct Answers: D

6: An organization is migrating from an older document imaging system to a new system. What is the most important risk to consider first?

- A. Barcode compatibility.
- B. Lack of documentation.
- C. Reliable and accurate retrieval.
- D. Database capacity and transfer rate.

Correct Answers: C

7: An organization currently microfilms all source documents. While filming, the source document is unavailable for a minimum of three days. A document imaging system has been proposed where documents will now be scanned.

What is the best advantage of the proposed system?

- A. Scanned images are higher quality.
- B. Documents are available immediately.
- C. Scanners are more reliable than cameras.
- D. Microfilm can be created from the scanned documents.

Correct Answers: B

8: An imaging consultant has just finished a presentation showing document retrieval over the Web. The client has specified that this is a requirement of the project.

However, after the demonstration the IT group is expressing concerns about opening their system up to the Internet.

How should the consultant respond to the IT group?

- A. Tell them that the project team is satisfied.
- B. Ignore them, as the project requirements are met.
- C. Demonstrate the retrieval of the documents again.
- D. Explain to them the security components of the solution.

Correct Answers: D

9: A sales consultant has proposed two different storage solutions: a network-attached RAID array or a network-attached jukebox.

What is the major difference between these two solutions?

- A. Jukebox storage capacity is higher.
- B. RAID array storage capacity is higher.
- C. The jukebox allows for faster retrieval.
- D. The RAID array allows for faster retrieval.

Correct Answers: A

10: Which of the following parties would most benefit from producing a structured training

document?

- A.IT
- B.CIO
- C.Exam Code
- D.Help Desk

Correct Answers: D

11: A legal customer wants to place identifying marks on each document as it is scanned. What is the procedure commonly called?

- A.Barcoding
- B.Imprinting
- C.Prefetching
- D.Thresholding

Correct Answers: B

12: Hospital management is implementing a document management system. Research has indicated that nursing staff who will be using the system feel that they are understaffed and will not have time to enter the data. However, when questioned it was found that the nurses did not really know what the system was about.

What key factor has been overlooked?

- A.A proper public relations exercise was not carried out.
- B.Access to a demonstration system has not been provided.
- C.Management has not explained that the system must be used.
- D.The end-users have not been engaged in the entire process.

Correct Answers: D

13: Companies have always taken precautions with the physical security of their records.

Which of the following security precautions is the most important when transmitting electronic documents over the Internet?

- A.Digitally sign and watermark all documents before publication.
- B.Limit access to the documents using encryption and authentication.
- C.Limit access to the documents by implementing a firewall and HTTPS.
- D.Require users to enter password and date of birth in order to access documents.

Correct Answers: B

14: During the presentation of a prototype, a customer realizes that it has left out a critical security component. The customer has already approved the software requirements.

What is the appropriate next step for the consultant?

- A.Ask the customer for a change request form.
- B.Agree to make the changes needed at no cost.
- C.Ask the development team to make the changes.
- D.Inform the customer that no changes can be made.

Correct Answers: A

15: ABC INC revises several procedure documents every year. Multiple individuals review and revise these documents before final approval.

Which would be the best solution?

A.EDI

B.COLD/EDM

C.E-mail

D.Workflow

Correct Answers: A
